Correspondence/Communication

Operator's Report

Average daily flow of 108,000 gallons per day in June. Continuing to increase the PAC feed to address the phosphorus levels causing a violation in June. Currently meeting limits. Repaired the sludge return valve on basin one. PA One calls DynaTech Recommended Improvements – **Motion by Darrell to approve repairs to generators not to exceed \$1000.00. Second by Jim. Motion approved.**

Equipment Inventory List Update – John is nearing completion of the list and plans to put it in an excel document. He anticipates some recommendations for purchases. Steve requests that EEMA continue to seek out an aluminum I-beam for lifting. Steve also inquired about the pump run times for Corbett. Operators will switch the pumps to see if that balances things any better.
